Where to measure

Below knee

The stocking size (centimetres) is determined by the ankle measurement (circumference at b). Calf circumference measurement (c) confirms the stocking size.

Calf circumference at widest point. Ankle circumference at narrowest point.

Thigh length

The stocking size (centimetres) is determined by the ankle measurement (circumference at b). Thigh circumference measurement (g) confirms the stocking size.

Thigh circumference at intended position of top band. Ankle circumference at narrowest point.

Intelligent silicone top band on thigh length stockings.
